11. Information about your right of objection according to Art. 21 DSGVO

You have the right to object at any time, for reasons arising from your particular situation, to the processing of personal data relating to you on the basis of Article 6 paragraph 1 sentence 1 letter f of the DPA (data processing based on a balancing of interests); this also applies to profiling of Article 4 No. 4 DPA based on this provision.

If you object, we will no longer process your personal data unless we can prove compelling reasons for processing that are worthy of protection and outweigh your interests, rights and freedoms, or unless the processing serves to assert, exercise or defend legal claims.

If your objection is directed against the processing of data for the purpose of direct advertising, we will immediately stop processing. In this case it is not necessary to specify a special situation. This also applies to profiling, insofar as it is connected with such direct advertising.

If you wish to exercise your right of objection, simply send an e-mail to datenschutz@messerocks.com.

12. Data security

All personal data you provide is encrypted using the common and secure TLS (Transport Layer Security) standard. TLS is a secure and proven standard, which is also used, for example, in online banking. You can recognize a secure TLS connection by, among other things, the "s" appended to the http (i.e. https://..) in the address bar of your browser or by the lock symbol at the bottom of your browser.

We also use appropriate technical and organizational security measures to protect your data against accidental or intentional manipulation, partial or complete loss, destruction or unauthorized access by third parties. Our security measures are continuously improved in line with technological developments.
